*star*line design grill

for purists

Plain, reduced and classy – this is what modern classic-style rooms look like. Muted colours, combined with golden and silvery accents convey a feeling of comfort and luxury. The round shapes and exceptional glass design of SHAPE COMPACT and SHAPE CIRCLE give the extravagant living sensation a discreet yet striking touch.

Ventilation

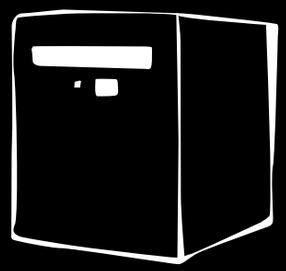
1

Quiet-Vent Radial Ducting

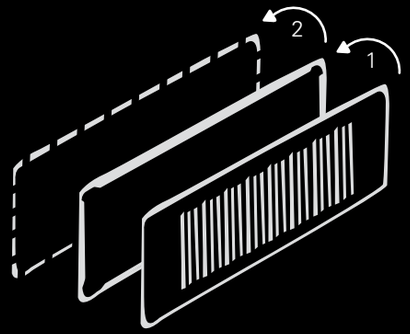
- smooth, antibacterial and antistatic inner surface
- innovative connection options – no sealing with adhesive tape
- lightweight and tightly bendable – fewer fittings required
- flow-optimised pipes and fittings (less noise, lower energy requirement)
- large flow rates possible



2

Quiet-Vent ventilation units

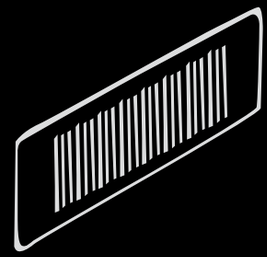
- high heat recovery of up to 91 % due to cross-flow heat exchanger
- fully automatic summer bypass
- easy-to-handle touch-screen control unit
-



3

profi-air mounting frame

- tool-free installation of the mounting frame
- innovative magnetic fixing of the design grill on the mounting frame: place – align – done
- compatible with all design grills
- to clean the ventilation system only the grill, not the mounting frame, must be removed



*star*line design grill

- superior materials
- modern design
- simple magnet installation
- change of design possible at any time
- suitable for any interior design and style
